

UPDATED MASK POLICY
as of February 12, 2023

As per the New York State Department of Health, mask wearing in health care settings is no longer a requirement. Feel free to wear a mask if you desire. If you have **symptoms** of COVID 19 or Flu please reschedule your appointment.

If you would like a mask to be worn in your presence during your encounter please inform the medical assistant.

We will continue to monitor transmission rates in our community. As such, this policy may be amended if need be.

Thank you
